INTRODUCING:

Our brand new architectural range: now you can finally build the whole city of TROY in 15mm!

We think there is a distinctive lack of good quality ancient buildings in 15mm on the market, and so we have started this range to put a remedy to such a shameful situation!

This first series of models is in Mycenaean style, which makes it particularly suitable not only for the city of Troy itself, but for all ancient Middle-Eastern City States and colonies, including those in Egypt, Assyria, present-day Lebanon, Israel and Jordan! These are very highly detailed and historically accurate reproductions that have plenty of texture to help you in painting. Like the rest of our resin products these are made with very high quality tough polyurethane resin so you are getting a scenic piece that is not only beautifully sculpted, it will also last you for a lifetime!

**15TOW-A**  
Ancient Near East in-line tower. Two parts model designed to hold a 40mm square base on top.

**15HUT**  
Small round stone huts like these were used by nearly every population living in mediterranean Europe.

**15WAL-A**  
Straight wall section for Ancient Near East fortified towns and fortresses. This two parts model is 120mm long.

**15TRY**  
Small town house. The less wealthy abitants of ancient dwellings lived in simple single floor housing like these.

**15GAT-A**  
Straight in-line wall gate section for Ancient Near East. Five parts model 120mm long, the entrance is 40mm wide.

**15STB**  
Small enclosed stable. Good horses were reserved to the very richest of citizen and the military, and well cared for.

**15BTS**  
Straight buttress module, handy to hide an unwanted door in a tower, or to close the end of a wall section, etc.

**15TRZ**  
Large two floors city house. The more well-to-do citizens of the city lived in larger two-storey house like these.

### COMING SOON IN URBIS:

More buildings and wall modules for the Mycenaean, Hellenistic, Roman and Medieval ages, plus accessories and figures to add detail and fun to your games!

**15SHD**  
Small extension designed to be attached to a larger building, or to a tower or wall section.

Welcome to our range of camp tents and baggage. Historically accurate and designed to be compatible with standard basing these highly detailed models cast in tough polyurethane resin will last you a lifetime!

No assembly required!

Supplied unpainted!

## KLEOS 15MM

At BAUEDA WARGAMES we strongly believe that camps and baggage deserve as much attention to historical accuracy and as much detail as any other part of the army, and our **KLEOS** range is here to give you exactly this.

Most of these models can be used for many more armies and settings than those specifically listed, for example the "ARA" tents are perfectly suitable for all desert nomads of all historical periods, but also for a variety of locations, including Asiatic steppe nomads, and are still widely in use even today!

**15ARA**  
Black tent  
Generic desert tent, suitable for all nomadic people: Arab, Bedouin, Hebrew, etc.

**15ASX**  
Anglo-Saxon Geteld  
Based on historical sources and suitable for all other Feudal European nations.

**15ARA-B**  
Palace tent  
A much larger version, perfect as a King accomodation or for a more permanent settlement.

**15RKO**  
Orc Clan Houz  
a typical orcish shack also suitable for any early northern barbarians!

**15ARA-C**  
Large desert tent  
A taller model most suitable for the late period and the largest 15mm figures.

**15ELF**  
Elvish tent  
No Elven army would ever leave home without their tents!  
Perfect as HOTT baggage.

**15PRS**  
Achaemenid Persian tent  
Suitable for any early Persian or Middle-eastern army, up to and including Sassanids.

Roman praetorium HQ tent  
suitable for any Roman Army,  
from Republican to Imperial.

**15CHI**  
Chinese tent  
Based on historical sources it  
is suitable for most Chinese  
armies up to the renaissance.

**15BYZ**  
Byzantine tent  
Based on actual historical  
sources it is suitable for all  
Byzantine armies.

**15NKE**  
Egyptian tent  
Based on New Kingdom  
sources it is suitable for all  
armies of the biblical era.

**15GOT**  
Crude leather tent as used by  
all early germans and northern  
barbarian tribes, up to and  
including the Gothic invasions.

**15MDV**  
Most suitable for any Southern  
European medieval army, the  
classic field accomodation for  
nobles and lords.

**15YUR**  
Mongol Yurt or Ger  
Suitable for mongols and other  
Central Asian steppe armies.

**15PAE**  
Medieval straw hut  
Suitable for any medieval-early  
renaissance army, the standard  
field accomodation for troops.

**15YUR-B**  
Nobles Yurt  
Larger and framed door Ger.  
Suitable for mongols and other  
Central Asian steppe armies.

**15RNS**  
Medieval pavilion  
Suitable for any European  
medieval army, as a field HQ  
or the King's quarters.

**15OTM**  
Ottoma tent  
Suitable for Ottomans and all  
other turkish armies well after  
the renaissance.

**15MDV-b**  
Best suited to a Northern  
European medieval army,  
another great campaign tent  
for nobles and lords.

**KLEOS**  
28MM

**28LEG**  
28mm Roman Legionary tent. Based on accurate historical sources it is suitable for all Roman armies. A Centurion tent will also be available soon!

www.baueda.com

**KLEOS**  
15MM

New releases for our 15MM camps range!

**15TBT**  
Traditional Tibetan tent (Maikhan) our model is about 38mm wide, 44mm deep and 22mm tall.

**HOSTIS**

Quality metal figures!

**15YAY**  
Ottoman auxiliaries with incendiary javelins

**WARNING!**

These figures contains lead, small sharp parts and may be harmful if chewed or swallowed. Not suitable for children!

These figures are historically accurate reproductions of Ottoman-Balkan Yaya as they may have appeared in the late 14th - early 15th Century, and are designed especially to be used as irregular medium foot, but being armed with incendiary Javelins they are also suitable as skirmishers. The feathered javelins with attached bags of incendiary material were used against siege-engines, ships, wooden defences or simply to terrify their foes.

Each pack contains 8 assorted figures on foot in four different poses. All figures are sold unpainted!

15mm Emishi: the perfect ally for any samurai army!

- **15EMI-1** forest tribes foot archers (8 figs)
- **15EMI-2** armoured foot bowmen (8 figs)
- **15EMI-3** Mounted warriors (4 mtd. figs)

**15PIG-1**  
Camillan Roman Flaming Pigs including 2 boar and 2 handlers

Also available now: **15PIG-2** 6 x domestic pig!

**15VKG**  
This Viking tent model is based on the frames recovered from the Oseberg and Gokstad ship burials. It is approximately 40mm wide, 65mm deep and 37mm tall, fits on 2 standard baggage bases.

**15BYZ-b**  
Byzantine Imperial HQ tent. Our historically accurate model has a diameter of 64mm and it is 50mm tall.

**CAMA MODELS**

**28005CM**  
Another common type of MG bunker. Overall size is 90x85mm and the height is 54mm. Internal size is 57x52mm and the internal height is 35mm.

We are proud to present our range of modern fortifications. Historically accurate and designed to be compatible with standard basing these highly detailed models cast in tough polyurethane resin will last you a lifetime!

# CAMA MODELS

**15mm!**

At BAUEDA WARGAMES we pride ourselves on our attention to historical accuracy and this range is here to do justice to modern battlefields, starting with those of World War II. All items in this range are well researched, highly detailed, scaled down versions of their real life counterparts. We had to take a few liberties in some case, in order to make sure you can always fit a standard gaming base inside, but other than that these are accurate 1:100 reproductions which have plenty of beautifully sculpted surface detail to help you in painting, including realistic damage from enemy fire!

**15004CM**  
1 Medium Bunker for HMG (German) has a separate roof and can hold a standard medium base inside.

**15021CM**  
1 Small octagonal open Bunker (German). Designed for a 50mm gun or a FLAK 2.0 or 3.7 cm.

**15005CM**  
1 Medium Bunker for HMG (German) has a separate roof and can hold a standard medium base inside.

**15022CM**  
1 Small "Tobruk" type Bunker with modified FT 17 tank turret (German) very common on the Atlantik Wall.

**15006CM**  
1 Medium Bunker for HMG (German) type VF4A "Verstarkt Feldmabigen" beach defence, Atlantik Wall.

**15017CM**  
1 small fortified emplacement (rural) perfect for a small weapon emplacement or as a game objective.

**15020CM**  
1 Large casemate for heavy guns (German) type H669 found in nearly all fortified positions on the Atlantik Wall.

**15018CM**  
1 medium fortified emplacement (rural) can hold a standard medium base sideways inside .
